SUMMARY

To join a progressive organization whereby my attitude will become stronger, I can be instrumental in the comprehensive growth of the organization while refining my current standards of skills, knowledge, and efficiency.

WORK EXPERIENCE

Full Stack Web Developer Intern

Webstack Academy

Feb 2024 - Mar 2024

Bangalore, India

- Developed full stack website using MERN Stack.

PROJECTS

Marks Uploading System using Blockchain

Our project introduces a blockchain-based marks uploading system for academics, ensuring secure record-keeping and data integrity. Educators can upload marks easily, enabling instant verification for students, employers, and institutions. This system streamlines academic credential verification, enhancing trust and efficiency in education.

Homely Hub

We developed a full-stack Hotel Booking website using the MERN stack (MongoDB, Express.js, React.js, Node.js) for a smooth user experience. Our project seamlessly integrates with third-party APIs: Mailtrap for secure email communication, Stripe for safe payment processing, and Cloudinary for efficient cloud storage of hotel images and media assets, ensuring optimal website performance.

EDUCATION

2021 - present	Bachelor's of Technology(CSE) at University of Engineering and Management, Jaipur	(GPA: 8.06/10.00)
2021	Joint Entrance Exam(JEE Mains)	(Percentile: 92)
2021	Class 12th CBSE Board	(Percentage: 86)
2019	Class 10th CBSE Board	(Percentage: 84)

CERTIFICATES

Data Base Management System (NPTEL)

March 2024

Programming in Java (NPTEL)

Oct 2023

Python for Data Science (NPTEL)

Feb 2023

Joy of computing using Python (NPTEL)

Oct 2022

Introduction to programming in C (NPTEL)

Apr 2022

SKILLS

Languages English, Hindi, Punjabi

Technical Skills C, C++, Java, Python, SQL, React, HTML, CSS, Javascript, Bootstrap, Tailwind CSS

Soft Skills Strong Communication, Time Management, Adaptability, Problem Solving
